CENTURION PLUS

Centurion Plus is an agile and flexible legal services solution designed for short term and long-term legal projects for corporations and public institutions across Germany and Europe.

“With all the support, guidance and resources of Centurion Law Group behind us, we’re giving top-tier talent and our clients more choice, more control and greater flexibility than ever before.”

The demand for legal and advisory services ebbs and flows with the rhythm of the everchanging business environment.

This frequently requires the need for a devoted team and permanent retainers. Similarly, in-house lawyers and advisors expend extensive hours in times of peak demand or have very little to do in quieter periods. Regardless, their costs need to be covered.

As a flexible services provider, offering tailored legal and advisory solutions, Centurion Plus is changing the way services are provided to businesses across Germany. Corporations are under huge cost pressures and users of legal and advisory services are looking for ways to make their budget stretch further, without compromising on the quality of counsel that they need to support their business.

Centurion Plus ensures that highly qualified, experienced and talented lawyers are available for clients seeking legal support across all industries on a demand basis.

The platform provides a service that combines the flexibility of an in-house resource with the support and quality assurance of a major law firm. Our lawyers, who pride themselves in integrity, strong ethics and quality delivery, have an in-depth knowledge and understanding of the German regulatory domain and represent the next generation of lawyers who will actively contribute to your company’s success.
